

Writing Your Submission

What should I think about when commenting on the Draft Report?

Council welcomes all written comments on its planning proposals and wishes to hear from the community, key groups, public sector agencies and authorities and other interested parties about:

1. any potential benefits and opportunities that this project work might bring for the community (what do you support?)
2. any concerns or challenges you see (what needs changing?)
3. possible solutions to your concerns (what can be done to improve project outcomes?)
4. when commenting try to focus your comments and proposals on matters that have broader implications (how does this affect or provide net benefit for the whole community?).

Please tell us if you have any additional ideas, comments or concerns about the draft report

Benefits of the Planning Scheme

Some of the positive social impacts or benefits of the 2024 Mildura Planning Scheme Review project include sections of the planning scheme that support and promote healthy active lifestyles, protect community amenity by providing for orderly planning so that sensitive residential type uses are separated from the negative impacts of commercial and industrial uses through planned zoning, overlays and their schedules.
